

## Who we are

GreenTech Exchange (GTEx) is a dynamic industry platform with a focus on technology commercialization and solution generation in the green innovation and clean energy domain.

## What we do

GreenTech Exchange delivers industry relevant forums, networking events, trade missions and market oriented programs to help advance innovation and expertise in the green economy.

By providing this delivery platform, GTEx

- Allows trade, investment and partnership opportunities to cultivate
- Enables business collaborations and technology transactions to grow
- Accelerates the flow of products and solutions between green and traditional industries

## Wish to participate?

## Connecting Expertise

## Engaging Communities

## Enhancing Value

### Market Access Program

GreenTech Exchange brings together selected Market Access Coaches, Consultants and Collaborators to work with companies, innovators and entrepreneurs to access target markets in North America and globally.

### Talent Matching/Internship Program

GreenTech Exchange connects selected technical and business talents from local universities and communities with well-defined requirements of companies and organizations for long term or short term assignments.

### Innovation, Investment & Trade

GreenTech Exchange collaborates with suitable partners to undertake business missions with selected companies and organizations to target growth markets and business centers focusing on innovation, investment and trade.
